Sub : Regarding disposing laboratory effluent to ETL

Dear Sir,

We are an academic institute conducting engineering courses. Laboratory effluent are generated from the laboratories during the daily routine work at our institute, although not in very huge amounts. However, we would like to scientifically dispose it off in an environmentally friendly/acceptable way. ETL is the only company in our closest vicinity dealing with such waste disposal in a satisfactory way.

We request you to please arrange tanker for collecting above mentioned effluent from SRICT and dispose it to your plant for appropriate treatment.

Thanking you.

Dr. Piyush Gupta

Dear Mr. Dharmesh,

Please arrange a pump for emptying the tank at the back of R&D lab which is a collection of wastewater from all labs in the institute. The tanker from ETL will come tomorrow morning.

Dear Madam,

Thanks for information. Yesterday, I was on leave. As er telephonic talk, tanker is already with campus.
