

## Turbine Model

**Name of Facility Created:** Turbine Model  
**Name of The Faculty:** Mr. Shivang Ahir  
**Facility Created:** Summer 2019  
**Associated Subject:** Power Plant Engineering (3171910)  
Turbo Machines (3171927)

### Purpose:

In order to understand theoretical design of flat vane, this flat vane turbine model is fabricated. It is also useful for understanding impact jet on flat vane to differentiate it with curved vane.
