

## **R&D Committee**

SRICT management encourages research and development (R&D) for development of science and technology. The industrial problems are collected from the local industry and allocated to the interested faculty as per their domain of expertise. Department of Science and Industrial Research (DSIR) has approved SRICT as an active R&D institute till March 31, 2019. Process for further renewal is in progress. This very significant mandate of the institute is closely monitored through a R&D committee . R & D committee consists of following members and they will look after R & D activities of SRICT .
