**One Week Short Term Training
Program (STTP) (Online)**

On

**“Environmental Legislative
Aspects for Industries”
(17th May – 21st May, 2021)**

Sponsored by

Department of Science & Technology,
Government of Gujarat &
Gujarat Council on Science and Technology
(GUJCOST)

Department of Science & Technology
Government of Gujarat

Organized by:

**Department of Environmental
Science & Technology
Shroff S. R. Rotary Institute of
Chemical Technology**

www.sRICT.in

ABOUT INSTITUTE

Shroff S. R. Rotary Institute of Chemical Technology (SRICT), established in 2011 is the first institute in Gujarat to offer B. E. in Environmental Science and Technology and Chemical Technology. It also offers B. E. in the field of Chemical Engineering, Mechanical Engineering and Electrical Engineering.

The institute is affiliated with GTU, approved by AICTE, firmly supported by UPL group of industries and managed by the Rotary club of Ankleshwar. SRICT is located in a pleasant and peaceful environment and also in the center of chemical industrial hub of Gujarat - Panoli, Ankleshwar, Valia, Jhagadia, and Dahej.

SRICT aims to provide quality education to all our students and strives to be a world-class institute to impart knowledge, quality technical education and to develop top leaders required by chemical and allied industries.

SRICT is also Schedule-I Environmental Auditor of Gujarat Pollution Control Board with NABL accredited Environmental laboratory.

ABOUT DEPARTMENT

Department of Environmental Science & Technology (DEST) is well-equipped with the rich laboratory facilities and possess skilled faculty members to lead students to excel in the field of environmental science and technology in order to provide economical, safe, and sustainable solutions of complex engineering problems pertaining to various environmental challenges.

The department is involved in carrying out different refresher courses, seminars, conferences etc. on regular basis. Faculty members are actively involved in the R & D activities and consultancy in close coordination with the industries.

ABOUT SEMINAR

Strict Environmental Legislations leads to environmental sustainability. Once strict legislations are implemented throughout the industrial process, a business will be well on its way to achieving environmental sustainability. The benefits of environmental legislations and environmental sustainability not only include cost savings and regulatory compliance, but also improved working condition for employees, competitive advantage with client, consumers and improved community and regulator relations.

The seminar will explore aspects of environmental legislations in the area of:

- ✚ Concept of sustainability for industries
- ✚ National Green Tribunal Act
- ✚ SWM rules and its applicability to industries and their township
- ✚ CGWA guidelines and its applicability to industries
- ✚ Hazardous Waste Rules
